

This letter is to let you know how important it is to so many families to keep K-Love 88.5 on the FM dial in all areas. K-Love serves as a resident in our local community. It is a positive and encouraging alternative to so many other stations. K-Love has touched and changed so many lives for the better. It has had a profound impact on our community and so many other areas that it is broadcasted. Please do not allow LPFM to broadcast other programs in it's place because this generation needs to know there is hope. Many people of all ages are touched by this ministry and I believe it's making a difference that no other can replace.

Thank you for you time.
